NEW BOARD OF COMMISSIONERS ORGANIZED. The first meeting of the county commissioners met this week and were greeted by some 30 citizens who it seems had been tipped off that if they made a demand County Agent Hursey would be rehired. Chairman Hopkins called the old board together and a hearing was held as to whether Mr. Hursey could be retained or not. Ed-commissioners Mel Prescott presented letters requesting that he be retained and about 23 spoke, requested that he be rehired. Jack Howard of the Winokur district was the main one opposing him. Several others thought he had done them no good. It was shown that a fight on the screw-worm would be necessary and if Mr. Hursey would undertake that without help he would be rehired. He was retained at the same salary and paid for the last quarter, \$50.00, with the government supplementing that.

NOEL RAULERSON DIED. Noel Raulerson, age 76, living near Moniac, died last Friday rather suddenly. He walked out of his home to look after some chores and did not return. A hunt was made and he was found dead in the cane patch. He had been dead for some little bit and as he was not in such good health it was taken for granted that he had died from a heart attack. He is survived by a son, Jake, and three daughters. He was buried in North Prong cemetery.

HERCULES MANAGER IS GETTING THINGS READY. Just as brisk as he could be, D.W. Lane, Hercules district manager, was here Monday putting things in shape for business to be done shortly. The crew of surveyors have been busy the past month marking off tasks for the working crew. Each 490 acre tract is surveyed into 30-acre plots so as to systemize the work.

ALEX BRYANT RECOVERING FROM STROKE. Reports from the home of Ben Bryant is that Alex Bryant is recovering from a slight stroke of paralysis which he suffered Saturday evening. He has been in failing health for some time but was still able to be up and about doing chores about the place. He came in from the yard the other evening and when he started to sit down, fell to the floor. He was assisted up and it was thought that he just fell out of the chair until he tried to speak. It was noticed that his right side was affected. He is recovering and is now able to talk all right.

TOURISTS EAT HERE. Twenty-eight tourists, not known to each other, but all on their way to Florida took breakfast at the Dixie Restaurant last Friday morning from which Mrs. Purdom suspects that another Florida "boom" is incubating.

WINOKUR SCHOOL BEGINS EARLY. Monday the Winokur school opened for a new semester as the patrons wish to have the school run full time and not extend too far into the planting season. This will put them out a week ahead of the other schools.

MRS. ROBERT PRESCOTT DIED. Mrs. Robert Prescott died at her home in the Prescott neighborhood near Winokur yesterday morning of pneumonia. It is said that her burial will occur this Friday morning at 10:00 o'clock.

January 11, 1935

OFFICE BUILDING BURNED. The old office building of Dr. Williams owned by W.E. Gibson was destroyed by fire Friday night. Frank Murray and a young CCC boy named Harris were sleeping in the front office room when young Harris commenced kicking the cover off, saying to Murray that it was too hot. After getting rid of all the cover he found himself stifled from smoke and awoke to the fact that the building was on fire. He and Murray made their escape taking their bed with them. Mr. Murray stated that he opened the back room door and was faced with a rush of flames. The entire inside was burned. The loss is covered by insurance.

ORDER OF THE EASTERN STAR. The new officers of the Eastern Star were installed Tuesday night.

FOLKSTON CITY COUNCIL MEETS. On the first day of the new year the Folkston city council was sworn in and re-elected Clerk Owen Wilson, Marshal J.H. Barnes and Attorney George Gowen. Salaries were on the same basis as 1934. The report submitted to the council for last year's business was certified by L.E. Mallard, auditor, which the Herald will print if supplied us at the legal fee or if the town is too poor to pay for the printing we will do it at the expense of Rep. T.W. Wrench free of cost to the town. This report shows Folkston in debt something over \$24,000.00 and a surplus of \$83.00 in the treasury with something like \$1,000.00 due.

HOMELAND HAS GOOD FINANCIAL REPORT. An adjourned meeting of the Homeland town council was held this week, Mayor Wrench having called the same to hear annual report on tax collection. Recorder Ackerman made a fine report, showing \$191.00 in the town treasury. An annual statement is being prepared and will be published showing the condition of the town's finances.

NOTICE TO DOG OWNERS. Dear Editor, We have plenty of serum for rabies shots for treating dogs and the Mayor has already warned the citizens who own dogs that the

animals must be vaccinated or be shot. If you value your dog, have it vaccinated. These are orders from the Health Department of the State of Georgia and so ordered by Mayor of Folkston Clyde Gowen. ---DR. A. FLEMING

NEW BABY. News from the western front to W.R. Wainwright came this week that Mr. and Mrs. Clyde Wainwright are the happy parents of a fine eight pound son. This is their first boy child, so they are pleased as much as Mr. Wainwright is over the event.

REGISTER NEW BABIES IMMEDIATELY. The report of some half dozen babies born this week in Folkston with none of them registered, has caused the request of the Herald to state that the laws of Georgia require the registration of the child as soon as it is born, together with its name and sex. Dr. W.E. Banks is the registrar, so see him and register the child, as it costs you nothing but must be done or else you have violated the law, leaving you liable for punishment.

JOHN CANADAY, 8 YEARS OLD, DIED. John Canaday, son of Mr. and Mrs. Spence Canaday of St. George, died Saturday after a lingering illness of over a year of a tumor of the brain. The little fellow, so long a sufferer, succumbed at last to the dread disease. Mr. Canaday did everything possible to save the child, sending to Baltimore for a specialist who suggested a brain specialist in New York who came by air to operate on the child. He advised Mr. Canaday of his inability to save the child and told him that under the circumstances he would make no charge. This is a fine example of generosity on the part of this noted doctor. The funeral was at North Prong cemetery, the family burial grounds. He is survived by his father, mother, one brother and one sister, his paternal grandmother, Mrs. Betty Canaday and a number of other relatives.

January 18, 1935

DIPHTHERIA CASE IN ST. GEORGE. A case of diphtheria developed at St. George and fear of an epidemic induced the importing of a supply of serum by Dr. Fleming. He and the County Nurse were at St. George yesterday treating children. Three years ago the doctor administered the treatment to 300 children there, ranging from six months to ten years, and since that time the community has been free of a threat from that source until now. During the last few weeks Dr. Fleming has inoculated about 300 school children from this vicinity [Folkston] and treated them for hookworm. The doctor is somewhat mystified by the great variety of worms he has found to be infecting the

children and has called upon Washington for a specimen of the real hookworm in order that he may more effectively fight the affliction.

FLORIDA FRUIT TRUCK. A northbound truck heavily loaded with Florida oranges broke through the bridge across Stanley Branch yesterday. It is suspected that being off the main highway the truck had endeavored to evade the close inspection of fruit from Florida.

FOLKSTON PECAN CO. IS BUSY. During the months just before the holidays the Folkston Pecan Co. employed around 85 girls as crackers and shellers of pecans. At this time there are only about 25. QUILTS FOR NEEDY FAMILIES. The quilt-making project, under the administration of Miss Ruth Smith representing the National Relief plans, is nearing an end. The average number of women who have found congenial employment in the work has been 20 and the output of the project when ended will number 700 quilts. These will be distributed to needy families.

FIVE HERCULES FAMILIES MOVE INTO NEW VILLAGE. A gang of painters from Hercules headquarters in Brunswick arrived in Folkston this week to paint the new houses being constructed at the local Hercules plant, several of which are completed and five of which are occupied by white families from the Racepond section. A dance was enjoyed Thursday night in honor of the arrival of the new families.

PLANES OVER FOLKSTON. Ten aeroplanes which had taken part in the big air events of Miami last week flew northward over Folkston Monday afternoon. The noise they made recalled to older people the flights of wild pigeons as they made their way through the air fifty years ago.

JOSH WARREN DIED. Josh Warren, a former resident of Homeland, for the past several months a patient at Milledgeville hospital for the demented, died in that institution last Thursday. His body was brought here for burial.

SANITATION SYSTEM COMPLETED AT CCC CAMP. The sanitation and sewage system at the Homeland CCC camp was completed a few days ago. It consists of some 14 commodes, 16 shower baths and about 3,000 feet of connecting pipes. Otto Martin and helpers have been employed for the last three or four weeks in the installment of the system.

GOWEN COTTAGE IS COMPLETE. Mayor Clyde Gowen's modern cottage in the western part of Folkston is completed. The family of N.V. Brown live on the first floor while bachelor quarters on the upper floor provide conveniences for Mr. Gowen and Dean Oxley. Plumber Martin is installing on the upper floor a bathroom and lavatory with which the lower compartment is already supplied. The home is an attractive addition to the town.

WATER WELL AT CCC CAMP. The attempt to procure wholesome water for the CCC camp at Homeland has been declared a failure. A well has been drilled to a depth of 450 feet and a supply of water has been procured therefrom of a quality suitable only for sewage and bathing. Analysis in Washington shows it to be unfit for drinking purposes. Pipe connections with the Folkston water system may be made. Drinking water is hauled from Folkston to the camp.

PECAN MARKET IS QUIET The Folkston Pecan Co. is now working on the last of the present supply of nuts with only a few girls employed in the cracking department. The demand for nuts in the northern market appears to be as good as can be expected at this season. The local company has many unfilled orders on hand which it has to hold back because growers are demanding a price in excess of what the market seems to justify, jobbers having forced the price to an unsatisfactory point, but the Hennings feel sure these marketing conditions will soon adjust themselves and that the factory will, a little later, again employ many people. Up to this time the concern has handled about 200,000 pounds of shelled nuts.

The quarantine which has been in effect at the Homeland CCC camp for several weeks because of the flu was raised Thursday of last week. The camp is in an excellent condition speaking of health.

Hall who is being assisted by volunteer labor, members of the Alumna Assn. and by the bus drivers. The prospect of securing FERA labor was so uncertain that the floor is being put down prior to the completion of the rest of the building.

The uncertainty which has for some months disturbed a considerable portion of the people regarding Highway One was dissipated this week by the discovery that right-of-way men had arrived and were busy taking over by purchase and gift the necessary land for the relocation of the highway between here and beyond Mattox for the purpose of avoiding railroad crossings and building it on the east side of the railroad. The old highway is to be abandoned.

Under instructions from Washington Dr. A. Fleming has been engaged this week in examining the mental and physical condition of all people in the county who are on the relief rolls. He has examined about fifty persons and is making up reports from them now.

Work is to be undertaken at once on the old Wade Canal constructed in 1912 by N.G. Wade while he was engaged in large plantation plans near Winokur. The canal has been virtually abandoned for many years but a large body of land has been taken over by the government to further its plans of farm rehabilitation through which it runs. The

government will now dredge and widen the bottom of the artificial stream for about twenty miles for the benefit of the farmers who are to be placed there. It is said that there are about 25 farmer applicants who are to take advantage of these plans. Nothing definite is known about the details but it is said that there are about twenty-five hundred acres involved and it is generally considered good farmland.

FOLKSTON PECAN COMPANY CLOSES FOR SEASON. Folkston Pecan Company Monday made its last shipment of shelled pecans and closed its doors for the season. During the four months it was in operation it has distributed in wages alone to girls and women in excess of \$5,000.00. It paid higher wages than any other cracking plant in the U.S. during that time. The Hennigs, proprietors, are satisfied with the results even though they made no excessive profits. They managed to come through their first season without loss. Their plan is to reopen again October 1st better prepared to meet a constantly growing opposition in the general markets.

EDITORIAL. A gentleman just returned from a tour of a section 100 miles north of Folkston was astonished to be able to count nineteen Charlton County farmers idle on the streets of this town last Tuesday. He said the farmers, large and small, in the section just visited were all very busily engaged in cleaning out fence corners and other chores, and that day, Tuesday, was an especially fine day for farm work of any kind.

GOVERNMENT SURVEYORS HERE. A tented "city" sprang up without warning within the Folkston limits last Saturday. Eighteen or twenty of these cloth shelters now occupy vacant lots just south of the Methodist Church including a headquarters tent and a cook tent for the 28 people who occupy them. This is a contingent of the Coast and Geodetic

Survey of the U.S. Chamber of Commerce. They are making a complete survey establishing lines for permanent records of the government. They have twelve steel towers reaching upward 113 feet within which is a second steel tower for their use in their very particular mathematical work.

HIGHWAY ONE RELOCATION. No definite information concerning the relocation of Highway One seems to be available at this time. Rumors and guesses are plentiful.

This stage will be 108 feet long and 36 feet wide and three feet high, made of earth and sodded with grass. The background will be high in the center tapering to each end with arch entrances east and west. The trees are being planted one meter apart so that they will form a close hedge soon after growth begins. The walk from the elementary school building to the dining room in the high school building will run just in front of the stage. Within a few years this planting will begin to show up nicely. Planting additional camphor trees along Highway 40 was continued this week. It makes a continuous row of evergreen along the north side of the school property for 790 feet, planted 12 feet apart so as to form a screen to shut out noise and dust. He became ill on Friday and was considered very sick from the first, Dr. Sawyer having been summoned to treat him. He was single, living with mother and widowed sister, Mrs. Thrift just north of the Prescott settlement, being their main support. He was a

Martin; brother, Otto Martin; three sisters, Mrs. J.A. Hathaway, Mrs. H.J. Mays and Mrs. Arlie Newell.

RUN-AWAY CAR. Monday evening two Ware County women traveling southbound through Folkston stalled their Ford car on the Main Street railroad track. They saw a fast train approaching and immediately jumped from the machine. Seeing the train, a colored man driving in the same direction bumped the car from the track and as the leaping ladies had left the car in gear, it cranked up and started a rapid pace through Folkston, veering to the left. It took to the sidewalk in front of Dr. Thompson's drug store knocking down a sign and scraping a wall, then struck an awning rod in front of Stroup's Barber Shop. This last impact stopped the car. Frank Murray reports that Pete Stroup went out of his back door as the car seemed determined to give so many a close shave.

A MAN'S MONUMENT. Seaborn F. Mills, Sr., Representative, 1886-1887. There is a monument in the pages of the Acts of the Legislature dated back to 1886 that makes the memory of one of Charlton County's citizens stay green. That citizen was Hon. Seaborn F. Mills, Sr., the father of S.F. Mills, Frank D. Mills and Edgar Mills, Mrs. W.L. Jones, Mrs. H.A. Renfroe, Mrs. C.Y. McCullens and Mrs. J.B. Baker. That act is the passing of a law requiring Charlton County to collect a high license of \$5,000.00 before any saloon

or sale of spirituous liquors can be made in Charlton County. This has caused Charlton County to be without a saloon for the past forty-eight years. That act was the work of Mr. Mills who died February 7, 1929 at his home near Folkston. This information is important at this time when Georgia has just put on a campaign to repeal the prohibition law and this act will have to be killed by an act of the Legislature before any spirituous liquor can be sold legally in Charlton County. We honor the memory of a man who had the foresight fifty years ago to place a statute on the books that has become so alive at this date.

PROHIBITION MEETING. TRAM LINE PREPARED FOR CROSS TIE MANUFACTURER. Mr. Fred Vining, representing J.E. Matthews of Valdosta, tie manufacturer contracted to supply the Southern Railroad System, is getting ready to lay five miles of railroad rails for the tramming of ties from the Swamp area. The camp will use some seventy-five laborers and will be located just north of the J.H. Johnson mill site. Mr. Vining said "The large section we are preparing to build the tram bed on must have piling placed so the tram can run about two feet over the surface [of the water]. We then snake the ties to the cars then bring them out to the camp. The debris from the cut trees soon makes it so they will have some good fishing." Mr. Matthews also has a lease on the south and west side of the Swamp for cutting ties. The work of putting down the tram has already begun.

A.C.L. PARK. Coast Line agent H.C. Page is off on a vacation and Mr. Frank Powell is acting in his stead. The other morning we found Mr. Page looking over the park and we spoke of the beauty of the large tree in the park. He said "Well, I planted that tree just 28 years ago, a small Switch." That just goes to show how time will make a small switch into a large fine tree that today measures nine and a half feet in circumference, four feet from the ground.

AMARYLLIS BULBS. George White received orders this week from New York and Philadelphia for a couple of dozen of amaryllis bulbs. He said the beauty of them, as well as the profit makes it pleasing to grow the flowers.

H.S. MATTOX INJURED FIGHTING FIRE. For the second time this year the apartment house of H.S. Mattox caught fire Saturday with little damage. Sparks from the chimney fell on the roof and set it blazing. It was soon discovered and a few buckets of water thrown on it subdued the blaze before the fire department arrived. In toting a bucket of water Mr. Mattox tripped over a wire and fell on the bucket mashing it flat and hurting

himself in the breast making it very sore for a few days.

in this church and community. She had been a member of the Baptist faith since 1876. She was the mother of eight children, four of whom had gone on before her. SANITARY PRIVIES RECOMMENDED FOR HOOKWORM CONTROL. In order to make the hookworm eradication in Charlton County a permanent work the FERA is prepared to help people construct sanitary privies as recommended by the State Board of Health. The people are to furnish the material and the unit will be constructed by FERA labor. We still have a large number of hookworm cases in the county and until we have better sanitation among the infected families we will still have children with hookworm because they will get reinfected again this year. For further information see Edgar Allen or Mrs. John Murray, Charlton County Hookworm Eradication Nurse.

SCREW-WORM CUTS SHEEP FLOCK BY 75 PERCENT. The wool sale annually made at Folkston was not up to standard for the 1935 season because the screw-worm made its inroad in such manner as to reduce the farmers' stock by 75%. At the depot Tuesday morning the farmers of Charlton, Brantley and Nassau Counties were weighing out their shearings and it was mournful to listen to their report of the loss of their sheep. T.H. Thrift, H.D. Thomas, M.G. White and W.R. Wainwright of Charlton County sold their wool. The Herald regrets to know that the loss of sheep has been so severe and this business so profitable to our farmers under ordinary circumstances has proved so disastrous under the onslaught of the screw-worm. Sheep are not easily handled in the freeing them of worms.

FOLKSTON CANNERY. The editor visited the new Charlton County cannery Friday and found a test of peas and corn. The corn was somewhat hard to can. The cannery is located just south of the ice house near the old Johnson commissary and it consists of a canning room and store room. TREES IN A.C.L. PARK. Editor Wrench strolled down to the west side of the ACL Park and found the trees have taken on new life. That gave him a thrill, for in the long ago he had the strong desire to see trees grow and invested in fifteen to get a tree movement started. He got four citizens to take a tree. They were Seab Mills, then chairman of the county commissioners; Dr. J.A. Moore, then Mayor; B.G. McDonald and L.E. Mallard. The rest of the fifteen were set out in the park in a spot we desired shaded. We, with the

help of B.G. McDonald and Dr. Brockman, a visitor here, set those trees out. It makes us have a yearning to sit under these trees now and think of our friends, three of them having crossed the River and are now where flowers bloom and cast off sweet scents all the while.

EDITORIAL. We have the desire to sate our appetites on the melons that our fields produce, but frankly it gets our temper out of shape to tolerate the lack of effectiveness of the town nuisance ordinance when we have to kick sour, nasty rinds off the sidewalk on the main street corner where someone too trifling and indifferent throws these rinds on the sidewalk.

BOYS OFF TO SEE THE WORLD. Paul White and Florney Wildes left Monday on a hitchhiking tour.

MR. JOHN WALTER DINKINS DIED. The news of the death of John Walker Dinkins who died in the Waycross hospital on the 22nd was not unexpected since he had been sinking for several days. He had been a sufferer for several months and a few days ago was taken to the hospital where he underwent an operation. He was a splendid citizen of Charlton County. He had lived at the home place since his marriage. His was considered one of our best families, one that made his living on the farm and kept even with the world. He reared an interesting family. Besides his wife he is survived by Theo, W.R., O. K., and J.T. Dinkins and three daughters, Mrs. G.M. Mizell, Miss Bonnie Dinkins, and Miss Jessie Dinkins; five brothers, L.J. Dinkins, L.F. Dinkins, W.J. Dinkins, A.L. Dinkins; three sisters, Mrs. J.N. Murray, Mrs. J.L. Anderson, and Mrs. Raney. He was buried at Sardis cemetery beside his parents and other kinsmen. He was a member of Bethel Methodist Church.

WINOKUR-RACEPOND ROAD IMPROVED. Forester Rogers tells us he is using his crew of CCC boys in the Winokur district this week, making a truck trail out of the road that runs by the school house towards Racepond. He's putting down two fifty-foot bridges and a twenty-foot one. This trail is for fire uses but will no doubt be converted into a regular road to connect at Racepond with the highway.

ST. GEORGE LIQUOR DEALERS MAKE GUILTY PLEAS. Wholesale liquor operations in the St. George section, extending across the Florida line, was unfolded in U.S. District Court in Waycross this week when seven defendants entered pleas of guilty. The cases resulted from liquor raids made February 27 and 28 by Georgia and Florida investigators when fourteen men were arrested and 2,314 gallons of liquor was seized in one of the most spectacular tax-enforcement broadsides fired since the repeal of the federal prohibition law. The cases were made after a federal investigator in the guise of an Atlanta bootlegger had gone to the St. George section and bargained with the owners of the large quantities of liquor. The price asked for the tax unpaid ranged from 70 cents to \$2.00 per gallon. It was seized by raiding agents as the owners were in the act of making deliveries to the disguised investigator.

The Hinds place in Homeland where T.W. Wrench has lived for eleven years was purchased by him this week. He is to have the farm fenced, the house repainted and repaired. This tract contains twenty acres and will make a delightful home, it being on the highway and electricity running by the door. Reports come in that a hospital is in store for Folkston. The registration of pupils for the Moniac Consolidated School took place Friday. 101 [or 191] pupils were enrolled that day and arrangements made for a month's review work in an effort to overcome a marked retardation caused by a short term and poor attendance last year. Teachers this year are G.C. Flanders, principal, Mabel Smith, Leila Crews and Monnie McDuffie. Work was started last week on a seven room residence by W.E.

Gibson. The building is located between the Baptist parsonage and the home of George Gowen. This home will have a metal roof, seven rooms and will be modern throughout. Ed Shivar is supervising the construction. In the death of Samuel C. [O.?] Crews, 77, at his home at Newell last Friday, Charlton County loses one of its most noted characters. Born on the Big Buffalo in upper Charlton he has lived his entire life within twenty miles of where he first saw the light of day. He had a reputation of being sturdy and honest, having his failings, yet always holding the respect of every citizen. His regular attendance upon court for the past fifty or sixty years and his association with court officials made him a factor in local politics. He served the county as a Commissioner in the Winokur district and held a strong influence with his people. He was a good provider and has quite a holding in real estate. He had a large number of relatives but no direct descendants. He was buried at Hickox with services by Lambert Jones. His wife passed away a year or so ago and he was laid to rest beside her.

MR. J.C. LITTLEFIELD, SR. DIED. Folkston and southeast Georgia was saddened Tuesday night when news came of the death of J.C. Littlefield, Sr. who was a prominent naval store operator in this section and who resided in Folkston and Charlton County for a greater part of his life and who was for eleven years Chairman of the Board of Commissioners of Charlton County. He died at his home after an illness of several months. He was 56 years old, a native of Camden County being a member of one of the old pioneer and aristocratic families of Camden County. They settled before the Revolutionary War. His mother was a member of the Quarterman family, also of Camden County. Mr. Littlefield first settled at Burnt Fort when first coming to Charlton County, being the owner of a large tract of timberland in that section. He has been actively engaged in naval stores, piling, cross-tie and general timber business for many years and was well and favorably known to all timber men in the southeast. He was a faithful and devoted member of Folkston Methodist Church, also a Master Mason of good standing. His untimely death coming in the prime of life is mourned by the entire population of both Charlton and Camden Counties. He was especially liberal to the poor and needy in times of distress. He is survived by his wife the former Janie Margaret Liles, also a member of a pioneer Camden County family; sons, J.C. Littlefield, Jr., Chandler, McAdoo, David and Kemp; daughters, Mrs. Sidney Brown, Mrs. J.H. Brown, Jr., Miss Margaret and Miss Mary Jane Littlefield; two brothers, D.W. 4-H CLUB ENTERTAINS FOR THE SCHOLARSHIP LOAN FUND. The Sardis 4-H Club planned a very interesting Box Supper, Pie-Eating and Joke-Telling contest for last Friday night. Mizell auctioned the boxes alternately and the boys had fun buying them. There were more school boys than older men; therefore the boxes did not bring a real large amount of money. The lowest price paid was 35 cents while the highest was \$1.30. Then everyone gathered around the pie table for the pie-eating contest. Taking part in this were Oree Roddenberry, Aderine Wildes, J.C. Murray and Ray Gibson, the latter winning the prize. This was the most exciting and comical entertainment to be seen outside of a show. Lemon was the pie served, made by the Misses Mizell. In the joke-telling contest Vina Mattox and Master Lamar Gibson were the winners. This furnished much fun for the entire crowd. The supper was served by the girls who carried boxes. Many people attended this entertainment.
